Product Description

STIHL RZ 760I Zero Turn Mower

The STIHL RZ 700 Series of zero-turn mowers offers 52" or 60" mowing deck sizes with three engine options, allowing pros plenty of options to customize their mowing experience.

With a 52" or 60" mowing deck and choice of Vanguard Electronic Fuel Injection (EFI) engine with Oil Guard™ System, Kawasaki carbureted engine or Kawasaki EFI engine, landscapers now have a variety of mowing options to meet their individual needs. Compact deck or larger deck? EFI engine for fuel efficiency or the performance of a carbureted engine? Many more features await with the professional RZ 700 Series of zero-turn mowers like an advanced four-wheel suspension system with mowing deck height compensation, independent front suspension with upper and lower control arms, and rear suspension with shock absorbers that are designed to work together to provide a smooth, comfortable ride and consistent cutting height. Plus, the powerful Hydro-Gear® ZT-4400 transaxles enable 10 mph forward ground speed and 5 mph in reverse, allowing for smooth and efficient cutting. Pros can experience even cutting and a comfortable ride with the durability, reliability, and comfort of the STIHL RZ 700 Series.

Features

- **60" Mowing Deck** - Provides wide cutting coverage to help professionals mow large properties more efficiently.
- **Multiple Engine Options** - Available with Vanguard Electronic Fuel Injection (EFI) with Oil Guard™ System, Kawasaki carbureted, or Kawasaki EFI engine options to match different mowing preferences.
- **Advanced Four-Wheel Suspension** - Features mowing deck height compensation for a smoother ride and more consistent cutting performance across uneven terrain.
- **Independent Front Suspension** - Upper and lower control arms help improve operator comfort and machine stability while mowing.
- **Rear Suspension with Shock Absorbers** - Works with the front suspension system to deliver a comfortable ride and maintain consistent cutting height.
- **Hydro-Gear® ZT-4400 Transaxles** - Provides dependable power transfer with smooth operation for demanding commercial mowing applications.
- **10 MPH Forward Speed** - Reaches forward speeds up to 10 mph and reverse speeds up to 5 mph to maximize productivity on large properties.

Best Use

- **Commercial Landscaping** – Built for professional landscapers maintaining large residential, commercial, and municipal properties.
- **Large Property Maintenance** – The 60" deck helps increase productivity by covering more ground in fewer passes.
- **Routine Equipment Care** – Pair regular maintenance with our [sharpening or buying new blades guide](#) to keep your mower delivering consistent cutting performance.
- **Professional Service Support** – When your equipment needs maintenance, visit a trusted [lawn mower repair shop in Mississippi](#) to keep your mower operating at its best.
