

Stihl Gas Professional Cut-Off Machine Saw - TS 500i Cutquik®

[Read More](#)

SKU: TS-500I-CUTQUIK

Categories: [STIHL](#)

Product Description

Features

Electronic Water Control (EWC) -Electronic Water Control allows the operator to easily adjust the flow of water while cutting and stops the water flow when the machine is at idle.

Decompression Valve -The decompression valve reduces the compression in the combustion chamber during cranking and helps reduce the effort needed to pull the starter rope.

X2 Air Filtration System -The X2 Air Filtration System revolutionizes the cut-off machine industry by allowing air filters to last up to a year, based on cutting conditions. Outside air enters the system in a swirling motion, removing 80% of dust particles. This pre-cleaned air is then routed through the primary and secondary air filters before being sent into the engine. The X2 Air Filtration System is virtually maintenance free and maintains an incredible 99.96% cleaning efficiency.

Ergonomic Grip -The ergonomic top-handle bar design provides an optimal comfortable grip in any working position.

Electronically Controlled Fuel Injection System -The fuel injection system makes starting easier and more reliable by eliminating the choke. Just set the switch to on, prime and pull.

STIHL ElastoStart™ -The ElastoStart™ starter handle is a feature of STIHL. It is a starting grip with a built-in shock absorber that helps reduce the effort when pulling on the starter cord. The ElastoStart™ starter grip noticeably reduces the sudden peak forces (compression) normally felt during cranking. The forces which occur at the grip after the first compression stroke are smoothed out.

Semi-Automatic Belt Tensioning -With consistent semi-automatic re-tensioning, this feature increases the service life of the belts and shaft bearings

Bayonet-Style Filler Cap -Includes retainer for easy use, even with gloves on.

Anti-Vibration System -STIHL has developed a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

Warnings and Safety

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow

carefully the operating
and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.

WARNING! Never use carbide-tipped, wood cutting, or circular saw blades on cut-off machines. They can cause severe personal injury or death from reactive forces, blade contact, or thrown tips. Never cut wood of any type.
