SKU: FS-131

Categories: [STIHL](#)

Product Description

Features

Straps and Harnesses -They distribute the load from your hands to your shoulders. They also help reduce operator fatigue and make it easier to use trimmers, brushcutters and clearing saws for extended periods.

TapAction™ AUTOCUT® Cutting Head -TapAction™ allows users to adjust the line length simply by tapping the cutting head against the ground.

IntelliCarb™ Compensating Carburetor -The IntelliCarb™ Compensating Carburetor measures the air pressure on the clean side of the air filter and adjusts the metering diaphragm in the carburetor. This keeps the RPM at a consistent level, even when the air filter begins to clog.

Bike Handle -When used in conjunction with a harness, the bike handle allows the machine to be easily guided, enabling a smooth horizontal mowing action to cover large areas quickly and efficiently. With soft grips for increased comfort, the bike handle provides greater control and helps reduce operator fatigue.

Start/Run/Stop Controls on Handle -**Anti-Vibration System** -

Shoulder Strap / Carrying System -Using a shoulder strap or carrying system helps distribute the weight of the equipment for increased operator comfort and improved maneuverability.

Tool-Free Handle Adjustment -The central wing nut enables easy adjustment without the use of tools. For transportation and space-saving storage, the handle can be rotated 90°.

Having easy access to all of the controls on one comfortable handle makes it easy to complete tasks so the operator's hand never has to leave the handle.

To get started, users simply pump the fuel primer, set the choke, and pull the starter cord. The built-in stop switch allows the user to turn off the engine with a simple press of the button. When the engine is off, the throttle lock automatically returns to the "start" setting. The tool will be ready to start again when the user is ready to get back to work.

Air Filter Cover -Easily remove the cover for fast and easy filter cleaning or replacement.

Protected or Enclosed Control Cables -Dangling and loose wires are eliminated.

Protected Spark Arrestor Muffler -Large baffles reduce noise level and contain a screen designed to reduce the emission of sparks.

Protected Spark Plug -The spark plug is protected yet easy to change.

Protected Choke Lever/Knob -The choke is protected to help prevent damage.

Warnings and Safety

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
