SKU: BGA-160

Categories: [STIHL](#)

Product Description

Features

Constant Power -Internal technology maintains constant power output during standard operation (non-boost) until at 10% a power reduction indicates the need for battery recharge.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Boost Mode -Using the variable-speed trigger, users can easily activate boost mode to temporarily increase to the maximum blowing force for extra power when needed for tasks like clearing wet leaves or grass.

Easy-to-Use Cruise Control -Features an easy-to-use cruise control function for more comfortable operation on longer projects

Reduced Noise -Users can operate in noise-sensitive areas or areas with noise ordinances thanks to the reduced noise of the BGA 160 compared to its gas counterparts.

High Power-to-Weight Ratio -This feature allows users to get more done by minimizing fatigue.

Ergonomically Designed -Featuring an ergonomically shaped blow tube pitched at an angle, the BGA 250 is designed with user comfort in mind.

Lightweight Design -At only 9.7 lbs. with AP 300 S battery, the lightweight design helps reduce operator fatigue.

Quiet Operation - BGA 160 -At 83 decibels, a noise level equivalent to a crowded restaurant, this tool's quiet operation is ideal for noise-sensitive areas

Instant-On Performance -100% torque instantly with the squeeze of a trigger

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Hanging Loop -The built-in hanging loop allows for easy wall-mount storage.

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

The BGA 160 battery-powered blower features a constant running power capable of 21 N of force with no drop-off in power as the battery charge reaches depletion. The innovative, ergonomic shape of the angled blower tube provides a natural working position, and the easy-to-use cruise control allows users to set the

speed and remove their finger from the trigger so they can focus on the job at hand. With a virtually maintenance-free brushless motor and weather-resistant design, the BGA 160 is not only powerful, but also built to stand the test of time.

Warnings and Safety

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
