SKU: BGA-300

Categories: [STIHL](#)

Product Description

Features

STIHL Noise Reduction System -The STIHL Noise Reduction System provides 360-degree low noise—perfect for noise-sensitive areas.

Powerful 26-Newton Blowing Force -Powerful 26-N blowing force and 192-mph air speeds provide heavy-duty clearing force for both dry and wet debris.

Robust and Durable Design -The robust and durable design is modeled after its gas-powered counterparts and is built for a day's work.

Excellent Energy Management -Three power levels and boost mode improve battery efficiency for consistent, long-lasting power throughout the battery charge.

Seamless Switch From Gas to Battery -Built with the same look and feel as gas-powered blowers, the BGA 300 features battery power and is easy to use so you can get straight to work.

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

Compatible with ADA 1000 -The ADA 1000, with two AP 300 S batteries, weighs about 9 lbs. less than the AR 3000 L backpack battery.

Anti-Vibration System -The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Rubberized Soft Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Ergonomic Design -The ergonomic design and adjustable harness help provide a comfortable work experience with minimal fatigue.

The first battery-powered backpack blower in the STIHL lineup is also its most powerful battery blower yet. With its high-performance brushless motor, the BGA 300 delivers a powerful 26 Newtons blowing force and 192 MPH air speeds for heavy-duty clearing of both dry and wet debris in a virtually maintenance-free package. When paired with the AR 3000 L backpack battery, the BGA 300 delivers up to 140 minutes of performance. Three power levels plus a boost mode improve battery efficiency for consistent, long-lasting power throughout the battery charge. In addition, it is now compatible with the ADA 1000, which equips users with the power of two AP batteries, giving them up to 50 minutes of run time. The ADA 1000 also weighs about nine pounds less than the AR 3000 L backpack battery. Modeled after its gas counterparts, the BGA 300 gives users a robust and durable design while also providing a comfortable, ergonomic use. Additionally, the STIHL Noise Reduction System provides 360-degree noise reduction that is perfect for noise-sensitive areas.

Run time may vary depending on usage and application.

This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.
