Product Description

Features

Mono-Comfort Handlebar -The state-of-the-art mono-comfort handlebar allows for quick access to the grass bag as well as easy height adjustment and convenient, foldaway storage.

Integrated Mulch Flap -The built-in mulch flap is easily engaged or disengaged with the flip of a switch depending on whether the mulching function is being used, eliminating the need for a separate plug.

Polymer Grass Bag -The polymer grass bag is designed to improve operator comfort and features a closed top and back along with downward angled side vents to reduce dust exposure. In addition, when the grass bag is empty, the indicator is flipped up to indicate the bag is not full. The indicator will flip down when the bag is full.

Single-Point Height Adjustment -Each mower features seven cutting heights adjusted from a single location.

4-in-1 Mower -This product feature 4-in-1 functioning for mulching, catching, and side or rear discharge, allowing for a customizable mowing experience.

Multi-Blade -The multi-blade provides powerful cutting performance to shred grass into small pieces for a cleaner cut and look to the lawn.

Double Ball-Bearing Mounted Wheels -The double ball-bearing mounted wheels provide durability and stability for low-maintenance needs along with smooth operation and maneuverability.

Carrying Handles -The integrated carrying handles help users easily lift or tip their mower and can double as eyes for securing the mower during transport.

Polymer Housing -The robust polymer housing provides lightweight durability for reduced operator fatigue and long-lasting performance.

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Ball Bearing Wheels -The sealed ball bearing wheels are designed for long life.

The RM 453 T features the state-of-the-art mono-comfort handlebar which provides strength and stability while also allowing for convenient access to the grass bag, easy height adjustment, and compact, foldaway storage. The integrated mulch flap is easily engaged or disengaged with the flip of a switch—no need for a separate mulch plug and the polymer grass bag is directionally vented to reduce dust exposure to the user. Featuring a lightweight and durable polymer housing and double ball-bearing mounted wheels, the mower is

highly maneuverable and provides stable, long-lasting performance. The 4-in-1 functionality lets you choose whether to bag, mulch, or side/rear dispense grass clippings. This next-generation mower is built for the long haul and handles with ease and operator comfort.
