Product Description

Gravely Pro-Turn® Mach One 60" Kawasaki® Zero-Turn Mower

Overgrown properties, stalky grasses, and wet conditions are no match for the MACH ONE. The tunnel deck directs clippings away from the blades, keeping them from getting bogged down.

Features may include:

- **High-Volume Output (HVO) Deck** - The HVO deck provides increased depth from trim side to discharge side processing greater material volume.
- **CBT System** - Our exclusive Constant Belt Tension (CBT) system ensures that belt tension is constant, keeping the blade tip speed and cutting results consistent.
- **Tunnel Deck** - Puts blades four inches back from the leading edge to lift grass before being cut.

Best Use

- **Large Commercial Properties** - Ideal for commercial landscapers maintaining wide areas.
- **Overgrown or Heavy Grass Areas** - Designed to handle stalky or dense vegetation.
- **Wet or Challenging Terrain** - Tunnel deck design keeps blades from bogging down in wet conditions.
- **Operators Needing Consistent Cut Quality** - HVO deck and CBT system deliver uniform mowing results.

Commercial Zero Turn Mower for Heavy-Duty Lawn Care

The Gravely Pro-Turn® Mach One 60" Zero-Turn Mower provides unmatched performance for commercial landscaping and demanding mowing tasks.
