Product Description

Hustler TrimStar 48" Walk Behind Mower - 939504

Hustler's TrimStar® is a perfect addition to any commercial mower fleet. It makes access to hard-to-reach spots easy and is designed to help reduce operator fatigue.

Features

- **48" Commercial Walk-Behind Deck** - Provides wider cutting coverage while maintaining maneuverability for precision mowing.
- **Kawasaki® FS600 Engine (18.5 HP)** - Delivers dependable gas-powered performance for demanding commercial mowing tasks.
- **TrimStar® Commercial Platform** - Designed for professional landscaping fleets requiring durability and productivity.
- **Operator Fatigue Reduction Design** - Engineered to improve comfort during extended mowing sessions.
- **Enhanced Maneuverability** - Allows easier access to hard-to-reach areas and tight landscape spaces.
- **Heavy-Duty Commercial Construction** - Built to withstand daily commercial lawn care operations.
- **Stable Handling and Control** - Provides smooth operation across a variety of mowing conditions.
- **Fleet-Ready Performance** - Ideal for integrating into commercial landscaping and maintenance operations.

Best Use

- **Commercial Lawn Care Services** - Ideal for landscaping professionals handling routine mowing contracts.

- **Tight and Detailed Mowing Areas** - Perfect for navigating around obstacles, fence lines, and landscaped zones.
- **Medium to Large Property Maintenance** - Wider deck increases productivity while maintaining precise control.
- **Daily Fleet Operations** - Supports consistent commercial performance

Commercial Walk-Behind Mower for Efficient Precision Mowing

The Hustler TrimStar 48" Walk Behind Mower delivers reliable commercial mowing performance with its 48-inch cutting deck, Kawasaki® FS600 18.5 HP engine, and ergonomic operator-focused design. Built for maneuverability and durability, it efficiently handles tight mowing spaces while helping reduce operator fatigue during long workdays. This [reliable walk-behind mower](#) is designed for professional landscapers who need productivity, precision, and dependable fleet performance.
